

Brooklyn chair

by Eugeni Quitllet

Even though the new version of our Brooklyn chair is made from recovered plastics from the sea, in tune with Vondom's Revolution to ensure a more sustainable future for all, it still maintains its contemporary and timeless essence, unifying its past with its future. Brooklyn is a yesterday, today's and tomorrow's chair. A sustainable furniture collection with an urban design, that is suitable for the most elegant spaces, it simulates New York's City Bridge with its straight and curved lines.

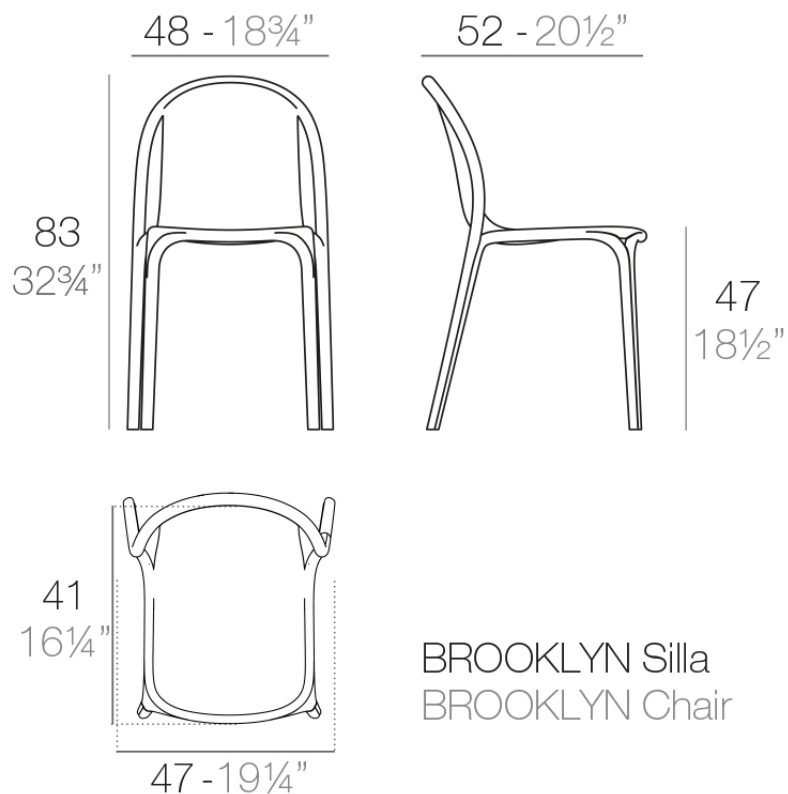

Info

Description

Made from polypropylene and reinforced with fiberglass manufactured by gas injection. Stackable . Available in various colors. Suitable for indoor and outdoor use.

In addition, the “Vondom Revolution” finish means it is made from 100% recycled plastic from the Mediterranean sea.

Weight: 3.93 Kg
