

Bum-bum toro speaker

by Eugeni Quitllet

The design furniture collection Bum Bum, designed by Eugeni Quitllet for Vondom, was born from the principle of not designing objects, but rather musical instruments to be used for another purpose. The same as a person who holds a shell to their ear to hear the ocean.

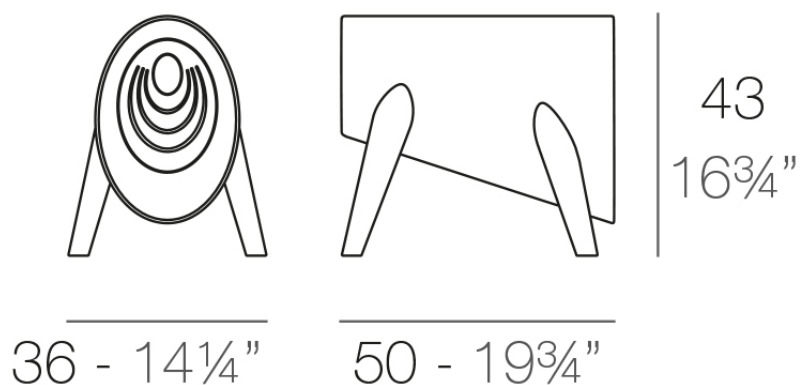

Info

Description

Made of polyethylene resin by rotational moulding. 100% Recyclable. Item suitable for indoor and outdoor use. MAIN FEATURES: aux-in music device, wireless audio by bluetooth, Clarion CM1625 speakers
